I just wanted to let the readers know that Roblox is not a bad thing for children to play. It teaches them a lot of skills that will help them in the future. It teaches them how to be helpful, creative, and patient. I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game! In Roblox, players can create an avatar in whatever shape, form, or color they wish (as long as it's not offensive). But before they can do so, they must choose from a variety of different body parts, heads, legs, arms, etc. There are also many different hairstyles to choose from. There is a large variety of clothing options to choose from, each with its own effect. People may think that Roblox is a very childish game but in reality it is not. I have seen many adults playing this game, and I believe that they just maybe started in the past few years. The reason why people say Roblox is a child's game is because it has some pretty high minded themes in the games you can play. For example being able to make your own avatar or being able to decorate your own house, these are things that at first glance seems like something you'd do with your friends or family. Of course these are just things to make players feel good about themselves. But really the game is not about anything but just making a character and having fun. I personally think that the vast majority of Roblox games are for children. There is only a few games that are suitable for adults which were developed in recent years, but there are also a large number of games that have been around for years, and it is still very popular. I don't think there is anyone who has played this game since they were a child, so it's not like people will stop playing because they're unhappy with the newer games. I also think that Roblox is a great way for children to develop a lot of positive skills because they are using their imagination in every aspect of their game. For example, if you want to create your own avatar but don't know how, then you can just create different body parts such as hair or skin color and add a pretty face with an outfit. This will help them feel comfortable and not afraid about trying new things. I personally could work on my vocabulary by playing Roblox because they have so many words that you will need to remember. In order to remember these words you can just go through your dictionary or the game and see how many words are similar. This is also good for children because they can learn a lot of vocabulary while playing games; this is similar to

learning about a new language in school. For me, I think that one of the most important skills that I have developed is patience. In Roblox I am required to be patient with my friends, because most likely they will not be online when I want to play with them. Posers are also another big part of the game where people pretend that they are someone else but if you tell them they can't do it then they will stop being so fake and start being their true selves again.

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.
