The logo underwent several changes under various visual design changes during this period. It was designed to feature the company's name without any visual association to the original logo. The previous logo is still in use today, albeit with a thicker frame.

I really liked playing my own games because it was fun to design a new world for my friends and myself. In my game I could make up anything I wanted. I could add trains, people, animals and pretty much anything else you can think of. I also liked making my own avatar because it gives me a lot of choices in making the way they look. Another thing I was really interested in was Roblox role play which is basically acting like someone else for a little while. You can choose one of your friends or even make up a new person and act like them until you want to stop again. This is good for kids because they get to learn how to act like they're someone else. It's also good for when they have to act in school and it can teach them a lot of things.

There are also people who scam other players by selling items with prices they can't get for items that aren't worth much at all when you try to sell them. I once had someone scam me because of that. They told me their account was hacked and that they could fix it for me if I give them one of my item. So I gave them one and they scammed me. Another problem is when people are posting comments and other players comment back at them about it. There is a lot of spamming going on, but the worst part is there is a lot of inappropriate content that is being made like adult themes, swearing, and inappropriate skins.
